## About ReXil Agro

ReXil Agro is a Dutch Company. We manufacture and distribute a wide range of products based on Silicic Acid Agro Technology (SAAT). All our products are safe and ecofriendly. With our innovative fertilizers, biostimulants and knowledge we improve the agriculture, aquaculture, horticulture and husbandry in an efficient, safe and eco-friendly way. As part of our vision, ReXil Agro intends to establish long lasting international partnerships with other organizations, companies, and research institutes to make our innovative ideas available to mankind.

## Product Description

AB SILIYAK is a multi-nutrient liquid for aquatic life in ponds, lakes and tanks. AB SILIYAK with highly concentrated bioavailable Silicic Acid and other micronutrients like Boron (B), Copper (Cu), Molybdenum (Mo) and Zinc (Zn) is effective in fresh water AND sea water. AB SILIYAK can be used in polluted ponds. AB SILIYAK stimulates, regulates, and sustains continuous diatom growth decreasing pollution.

## Application

Before application to the pond/lake, AB SILIYAK has to be diluted first 20 times with water and next applied to the water of the pond or lake during constant mixing using a dose regulation system. It is important that the product is mixed very slowly!

## AB Siliyak Positive Effects:

- ✓ Improve the growth of algae and diatoms.
- ✓ Improve shrimp immunity against diseases.
- ✓ Improve dissolved oxygen level.
- ✓ Decreases content of heavy metals/aluminium.
- ✓ Decreases ammonia concentration (50-80%).

## Dosage Water Application

Apply 1.5 - 2 ltr AB Siliyak to pond with an average surface of 0.8 ha every 2 weeks.

## Dosage Feed Application

Apply 10 ml of AB Siliyak per kg of feed and spread over the pond daily or apply as advised by aquaculture expert or consultant.

## Storage/Shelf Life

Keep/Store only in original container, on a dry, cool place.  
Storage temperature: between minimal 5°C and maximal 30°C  
Shelf Life: 2 years after production date.

## Multi Nutrient for Aquatic Life

### Micro-nutrients (percentage by weight):

Boron (B) water-soluble	: 0.2%
Copper (Cu) water-soluble	: 0.2%
Zinc (Zn) water-soluble	: 1.5%
Silicon (Si) water-soluble	: 0.8%
Molybdenum (Mo) water-soluble	: 0.1%

To be used only where there is a recognized need.  
Do not exceed the advised dose rates.

## Worldwide succesful applications:

- ✓ Positive food chain
- ✓ Eco-Friendly and safe
- ✓ Produced in the Netherlands

Improve Health

## AB SILIYAK BENEFITS

AB SILIYAK provides essential nutrients to improve the growth of algae and diatoms and to increase the resistance and health status of especially shrimps. By increasing the Silicic Acid concentration, the diatom population will increase, resulting in a positive food chain: other water organisms, algae, water plants, fish and especially shrimp will profit, direct or indirect. AB SILIYAK is user-friendly and fully biodegradable. It does not leave any toxic residues in tanks, ponds or lakes and is not harmful to other life forms.
