About ReXil Agro

ReXil Agro is a Dutch Company. We manufacture and distribute a wide range of products based on Silicic Acid Agro Technology (SAAT). All our products are safe and ecofriendly. With our innovative fertilizers, biostimulants and knowledge we improve the agriculture, aquaculture, horticulture and husbandry in an efficient, safe and eco-friendly way. As part of our vision, ReXil Agro intends to establish long lasting international partnerships with other organizations, companies, and research institutes to make our innovative ideas available to mankind.

abosilifish

Product Description

AB SILIFISH is a multi-nutrient liquid for aquatic life in ponds, lakes and tanks. AB SILIFISH is based on stabilized silicic acid and a mixture of micro-nutrients to improve the growth of algae and diatoms and to increase the resistance and health status of especially fishes. For professional/industrial use only.

Application

AB SILIFISH is used by mixing 0.5-liter AB SILIFISH per 0.5 hectare of pond or lake every two weeks. Before application to the pond/lake, AB SILIFISH has to be diluted first 20 times with water and next applied to the water of the pond or lake during constant mixing using a dose regulation system. It is important that the product is mixed very slowly!

AB SILIFISH Positive Effects:

- ✓ *Improve the growth of algae and diatoms.*
- ✓ *Improve shrimp immunity against diseases.*
- ✓ *Improve dissolved oxygen level.*
- ✓ *Decreases content of heavy metals/aluminium.*
- ✓ *Decreases ammonia concentration (50-80%).*

Dosage Water Application

Per 0.5 ha: add 0.5 liter ab silifish to 10 liters of water and add this mixture very slowly to the water of a pond, lake or tank while stirring.

Storage/Shelf Life

Keep/Store only in original container, on a dry, cool place.
Storage temperature: between minimal 5°C and maximal 30°C
Shelf Life: 2 years after production date.

Multi Nutrient for Aquatic Life

Micro-nutrients (percentage by weight):

| | |
|-------------------------------|--------|
| Boron (B) water-soluble | : 0,6% |
| Manganese (MN) water soluble | : 0,4% |
| Zinc (Zn) water-soluble | : 0,9% |
| Molybdenum (Mo) water-soluble | : 0,1% |

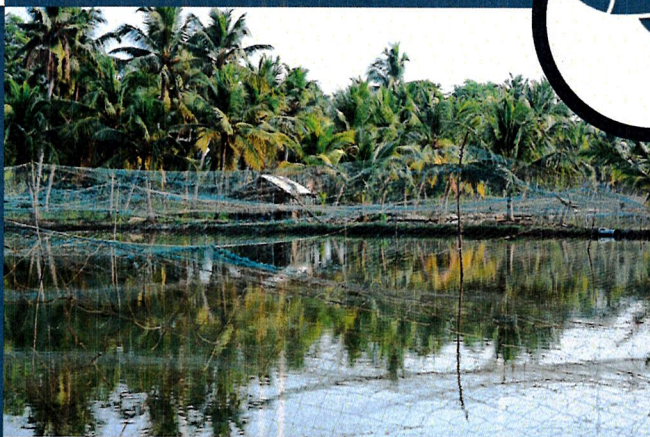

To be used only where there is a recognized need.
Do not exceed the advised dose rates.

Worldwide succesful applications:

- ✓ *Positive food chain*
- ✓ *Eco-Friendly and safe*
- ✓ *Produced in the Netherlands*

Improve
Health

AB SILIFISH BENEFITS

AB SILIFISH provides essential nutrients to improve the growth of algae and diatoms and to increase the resistance and health status of shrimps and especially fish. By increasing the Silicic Acid concentration, the diatom population will increase, resulting in a positive food chain: other water organisms, algae, water plants, shrimps and especially fish will profit, direct or indirect. AB SILIFISH is user-friendly and fully biodegradable. It does not leave any toxic residues in tanks, ponds or lakes and is not harmful to other life forms.
